

End of Course Testing Information

Polk County Early College and Polk County High School will be administering End of Course (EOC) exams at the end of the first semester. The NC General Assembly requires schools to complete all EOC testing during a testing window identified as the last five days of the semester.

The following high school level courses require an EOC test: Biology, Math 1, Math 3, and English 2. All students enrolled in these courses will be required to take their EOC test at school. The requirement to test at school includes students receiving only remote instruction.

Additionally, students may also participate in teacher-created or CTE exams for courses in which the state does not mandate an EOC. Those exams will also take place during the exam period identified below. All make-up testing will be completed during the days immediately following the exam period.

2022-23 Fall Exam Schedule

School	Date(s) of Testing	EOC Exams
Polk County Early College	December 14, 2022	Math 1 Honors Math 3 Honors
Polk County High School	January 10-12, 2022	Biology Math 3

NC Check-Ins/NC Check-Ins 2.0 Testing Information

The purpose of NC Check-Ins/NC Check-Ins 2.0 is to provide individual and classroom-level formative feedback. Comparisons to other classrooms, school, or local education agencies are neither encouraged, nor advised. The value in the NC Check-Ins/NC Check-Ins 2.0 results is for teachers to determine if their students have learned the content standards that were covered in their classroom prior to the assessments. NC Check-Ins/NC Check-Ins 2.0 share a common question bank with the EOG and EOCs, which in turn exposes students to similar question types and rigor found on the EOG and EOC. Participation is optional.

2022-23 NC Check-Ins/NC Check-Ins 2.0 Assessment Schedule
