

Janice Anderson Brumley Educational Grant

“Our wife and mother, Janice Anderson Brumley, dedicated herself to the students she taught in Polk County for over 30 years. She was a terrific teacher who was dearly loved by her students, not just the year she taught them but for years and years after. Her goal was to be the best educator that she could possibly be and knew that she could only achieve this by continually educating herself. In her pursuit of being the most effective teacher, mentor, and colleague, she attended numerous conferences all over the state and country and earned her Master’s Degree and National Board Certification. She donated her time and money in the process, but she also was the beneficiary of various grants and awards throughout her career. Therefore, it is our hope that this money is awarded to an individual educator who shares these goals and wishes.”

~Ken Brumley & the Family of Janice Anderson Brumley

Grant funds (up to \$1,000) may be awarded to an educator or group of educators (including media specialists, school counselors and school administrators) to assist with a continuing education experience (ie: NCCAT session or educational conference) or as a way to further their education or certification (ie: M.Ed. program or National Board Certification).

2024 Grant Recipient: Kendal Stoney, Tryon Elementary School

Kendal plans to use this award to obtain her AIG Specialist certification through Western Carolina University.
