WorkKeys are a set of assessments developed by ACT that measure essential workplace skills like applied math, graphic literacy, and understanding workplace documents. Their value lies in providing individuals with a credential (the National Career Readiness Certificate) that demonstrates their job readiness to employers, while also helping employers identify qualified candidates and determine training needs

\*A CTE Concentrator is a student in grades 9-13 who successfully completes at least two CTE courses in a single career and technical education program of study with at least one course from a level one (prerequisite level course) and one course at a level two (concentrator level) course. A CTE Participant is a student who completes at least one course in a career and technical education program of study.
